

Dear business partners and clients!

In order to correspond to our clients' demands, alternatively we are pleased to offer renewed second hand machines, equipment and spare parts too.
Don't hesitate to contact us, even if you are looking for special purpose machines.

Cleaning and Sorting

1 mobile seed cleaner – seed processing plant

capacity: up to 3,5 t/h (based on wheat)
with de-awner and height-adjustable belt conveyor for loading
mounted on a 3-axle-car trailer
condition: rarely used, year of construction 2019
Equipped with many sets of screen sheets for grain, soya and fine seeds!
Price on demand!

Cleaning and Sorting

1 pc. RUBERG aspirator (cleaning by air and screens) type RVS 80 - RENEWED aspiration – cleaning - sorting

- capacity: 80 t/h precleaning and approx. 9 t/h. seed cleaning (based on wheat)
- total screen surface: 18 m²
- working in recirculating-air mode (only 10 % exhaust air → less dedusting performance required)
- horizontally rotating sieve movement guarantees highest cleaning efficiency

Sample photos of an overhauled RUBERG aspirator (incl. new painting)

Furthermore there may soon be RUBERG aspirators with performances up to 150 t/h available for general overhaul.

We look forward to your inquiry.
